Full Stack Developer

Full Stack Developer with **3+ years** of experience building scalable, AI-powered, and enterprise web applications using **Go**, **Rust**, **TypeScript**, **Node.js**, **React** and **Vue/Nuxt**. Skilled in designing **Distributed Systems**, **Microservices**, **REST and GraphQL APIs**, merchant payment systems, KYC/onboarding workflows, and **LLM-integrated** platforms using **NATS JetStream**, **Google Gemini**, and **Firebase**. Proficient in cloud-native development with **AWS**, **Azure**, **On-premises**, with strong experience in **CI/CD** pipelines, scalable backend systems, and cross-platform delivery.

Technical Skills

Languages	:	Go (Golang), Rust, TypeScript, JavaScript, Python
Frontend	:	React, Next.js, Vue 3, Nuxt 4, Tailwind CSS, Vuetify, Material UI
Backend	:	Go (Fiber), Rust (Axum, Tokio), Node.js, Express.js, Python (Flask, FastAPI), REST APIs, GraphQL
AI / GenAI	:	Generative AI, AI Agents / Agentic AI, LLMs, Google Gemini, Function Calling, RAG, Embeddings, Vector Databases, Qdrant, Prompt Engineering
Databases	:	MySQL, PostgreSQL, MongoDB, Redis, ClickHouse, Qdrant (Vector DB), Firebase, SQLx
Cloud/DevOps	:	AWS (EC2, S3, Lambda, RDS, VPC), Microsoft Azure, Docker, Kubernetes, CI/CD, Git, Jenkins, NATS JetStream, OpenTelemetry, Liquibase

Experience

Senior Full Stack Developer — Nov 2025 – Present
Mosambee — *Mumbai, Maharashtra*

- Built and shipped **end-to-end features** across a multi-platform merchant payments ecosystem spanning a **Rust AI agent**, **Go backend services**, and **Vue/Nuxt dashboards**, supporting merchant onboarding, KYC, UPI payments, payouts, settlements, and transaction reporting workflows.
- Engineered a **merchant-facing AI assistant** in **Rust (Axum, Tokio)** integrating **Google Gemini** and **vLLM** with a **15+ tool registry** and **Qdrant**-based RAG, deployed as a **NATS JetStream** microservice mesh to automate UPI QR generation, transaction inquiries, payouts, and operational workflows through natural-language chat.
- Designed and maintained **REST APIs and backend services** in **Go (Fiber)** backed by **PostgreSQL** and **Redis**, powering merchant onboarding, KYC, payments, settlements, OTP handling, notifications, invoice generation, PDF rendering, and third-party fintech integrations.
- Integrated **6+ verification and compliance providers**, including **PAN**, **GST**, **Aadhaar**, **DigiLocker**, bank-account verification, AML screening, and OCR-based document processing, streamlining merchant onboarding and compliance workflows.
- Developed merchant-facing dashboards, internal admin panels, and operations tooling using **Vue 3**, **Nuxt 3/4**, **Vuetify**, **Pinia**, and **Next.js**, implementing RBAC, **2FA (TOTP and WebAuthn passkeys)**, document annotation workflows, reporting systems, and operational management tools.
- Improved scalability and deployment reliability by implementing **Dockerized services**, **Liquibase-managed database migrations**, graceful shutdown handling, AWS S3 integrations, push notification systems, and automated PDF/Excel reporting pipelines for receipts and transaction analytics.

Full Stack Developer — Sept 2023 – Nov 2025
LTIMindtree — *Pune, Maharashtra*

- Architected, developed, and deployed 10+ enterprise-grade web applications using **React.js**, **Node.js** hosted on **Azure App Services** with **99.9%** uptime, enhancing deployment efficiency by **35%**.
- Designed and developed **RESTful** and **GraphQL APIs** across **Node.js** enabling scalable inter-service communication and improving API response times by **30%**.
- Integrated secure authentication using **OAuth 2.0** and **JWT**, implementing **Role-Based Access Control (RBAC)** and ensuring compliance with enterprise-grade security standards.
- Built and optimized **microservice-based architectures**, containerized with **Docker**, and deployed via **Azure DevOps CI/CD** pipelines, reducing manual deployment overhead by **40%** and ensuring **zero-downtime** releases.

- Enhanced backend performance through **caching (Redis)**, **asynchronous event handling**, and **connection pooling**, reducing latency and improving throughput for high-traffic systems.
- Configured and monitored **Azure resources** including **App Services**, **Blob Storage**, **Function Apps**, and **Application Insights**, implementing environment-based configurations for staging and production workloads.
- Automated system health checks, log analysis, and maintenance tasks using **PowerShell scripts** and **Azure Monitor**, improving system reliability and observability across deployments.

Internships

Python Instructor Aug 2023 – Sept 2023
CodeBeat *Bhubaneswar, Odisha, India*

- Delivered **20+** interactive **Python** programming sessions, covering core concepts such as **data structures and algorithms**, and **object-oriented programming**, improving students' problem-solving abilities and increasing their average coding assessment scores by 25%.
- Conducted **10+** hands-on **coding workshops** on advanced Python topics, preparing 30+ students for competitive programming and tech industry roles, resulting in 80% of students securing internships within 3 months of course completion.

Frontend Developer Intern Oct 2021 – Oct 2022
AppyFlux *Bhubaneswar, Odisha*

- Developed and optimized responsive landing pages for AppyFlux and Zyadashop using **HTML, CSS, JavaScript, Php and Bootstrap**, enhancing user engagement and increasing brand visibility by 30%.
- Collaborated in building a scalable e-commerce platform using **React, Redux,** and **Node.js**, enabling over **1000 businesses** to create, manage, and scale their online stores effectively.
- Published and managed customer applications on the Google Play Store using **Android SDK** and **Firebase**, maintaining daily notifications that led to a 15% increase in user engagement and retention.

Education

Lovely Professional University Jalandhar, Punjab
Bachelor of Technology in Computer Science & Engineering *Aug 2019 – Aug 2023*
CGPA: 7.6

Sri Chaitanya Educational Institutions Vizag, Andhra Pradesh
Intermediate: 75% *Aug 2017 – Aug 2018*
